

JOINT SOLUTION

# ThreatConnect and Cybersixgill Darkfeed - let your threat intelligence SOAR

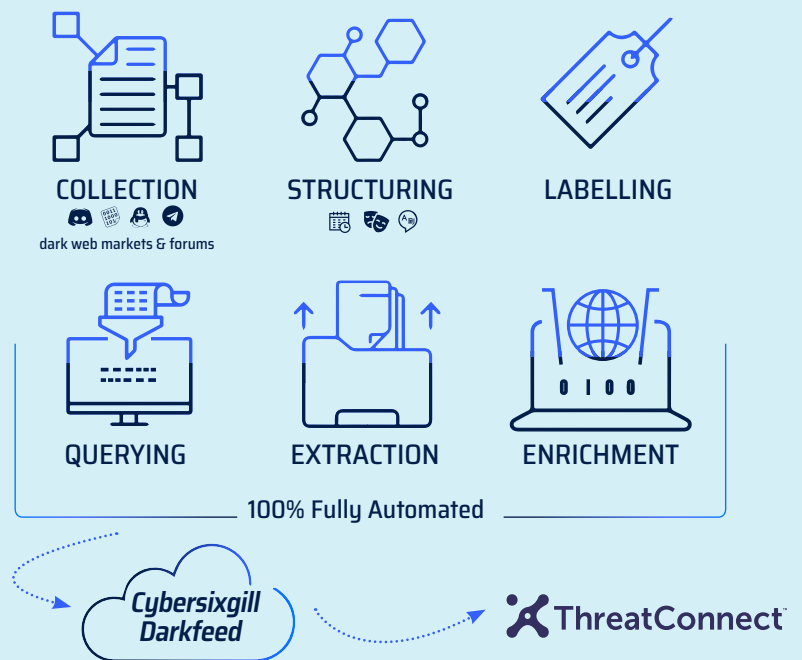

ThreatConnect fuses intelligence, automation, orchestration, and response to enable organizations of any size to be more predictive, proactive and efficient.

**Darkfeed** + **ThreatConnect**

[www.cybersixgill.com](http://www.cybersixgill.com)

## Benefits

- **Automatically integrate IOC** into ThreatConnect (machine-to-machine)
- **Supercharge ThreatConnect** with seamless integration of real-time contextual data
- **Receive automated early warnings** of new malware threats
- **Get actionable insights** to effectively mitigate threats
- **Level up your threat hunting** for malicious IOCs in corporate networks
- **Better understand** malware TTPs and trends

## ABOUT CYBERSIXGILL'S DARKFEED

Darkfeed is the industry's most comprehensive deep and dark web threat intelligence stream. With Darkfeed, ThreatConnect users can get real-time, actionable insights to block items that threaten their organization.

Darkfeed harnesses Cybersixgill's unmatched intelligence collection capabilities both in terms of breadth and quality. Its contextual threat intelligence is highly accurate, comprehensive, covert and automated. The feed is structured in the STIX format allowing ThreatConnect users to automatically consume and integrate it with their security systems, processes and methodologies.

“Darkfeed is our fraud teams’ magic bullet of real-time intelligence. It has transformed our ability to understand and minimize digital risk across the entire organization - using ThreatConnect.”

CISO

# Unleash ThreatConnect with Real-Time Intelligence

## Automatically integrate IOCs

to supercharge your threat intelligence

## Receive early warnings of new threats

as they develop on the dark web, before they are deployed in the wild

## Hunt for malicious IOCs

in organizational networks right from the ThreatConnect dashboard

## Conduct deep analysis of malware

available for download on the deep and dark web

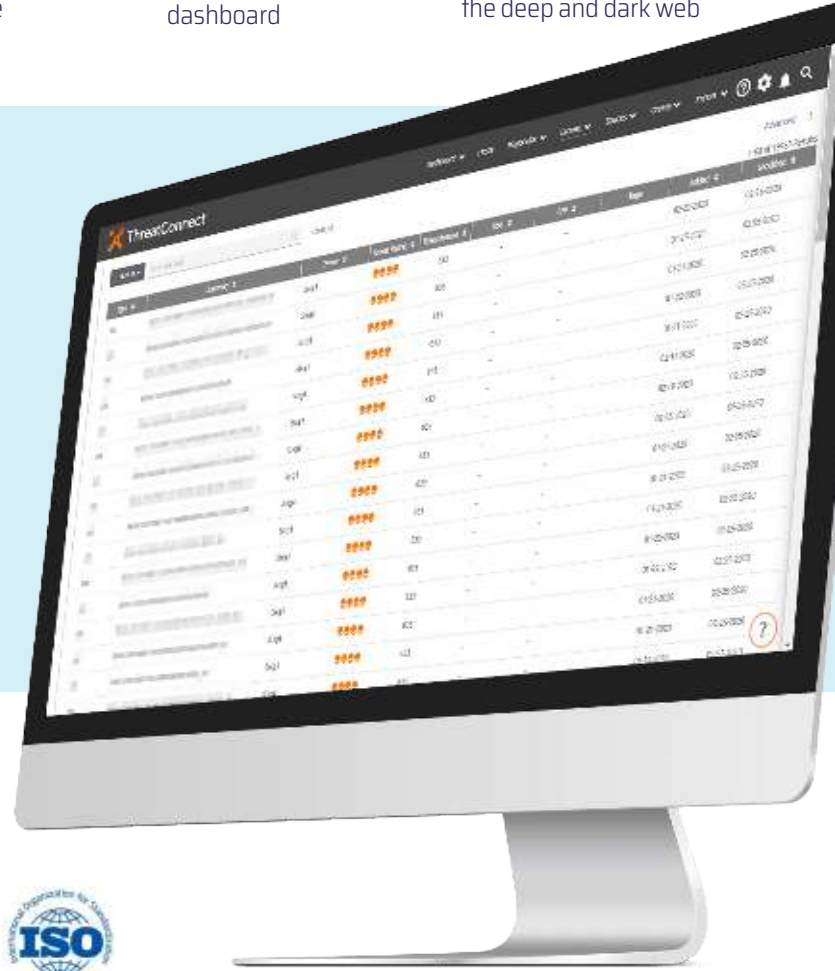

## FUEL YOUR ANALYTICS

Use the data to track, trend and gain data-driven actionable insights to the IOCs collected by Darkfeed. Gain better understanding of malware TTPs and trends.

## VISIBILITY INTO YOUR THREATSCAPE

Gain total visibility of the threatscape of your industry. Mitigate threats in advance, prevent incidents and minimize attack surface.

**SECURITY** We treat security of data with the highest standards. Cybersixgill's security-first approach leverages the best and most advanced technologies to make sure that your data stays safe and private. Our service undergoes rigorous audits and employs the latest best practices to ensure the integrity of the data as well as its authenticity, security and compliance.

Cybersixgill's fully automated threat intelligence solutions help organizations fight cyber crime, detect phishing, data leaks, fraud and vulnerabilities as well as amplify incident response - in real-time. The Cybersixgill Investigative Portal empowers security teams with contextual and actionable insights as well as the ability to conduct real-time investigations. Rich data feeds such as Darkfeed™ and DVE Score™ harness Cybersixgill's unmatched intelligence collection capabilities and deliver real-time intel into organizations' existing security systems. Most recently, Cybersixgill introduced agility to threat intel with their CI/CP methodology (Continuous Investigation/Continuous Protection). Current customers include enterprises, financial services, MSSPs, governments and law enforcement entities.

Designed by analysts but built for the entire team (security operations, threat intelligence, incident response and security leadership), ThreatConnect's intelligence-driven security operations platform is the only solution available today with intelligence, automation, analytics, and workflows in a single platform. Centralize your intelligence, establish process consistency, scale operations, and measure your effectiveness in one place.
